EXPERIENCE

2017 -2018

Mobile Application Developer

HABits Lab @ Northwestern, Evanston

Applied cutting-edge knowledge of progressive design and development strategies for creating an Android application to read sensor data from wearable devices that track eating habits.

2015 -2016

Web Development (Intern)

Sur University, Oman

Interfaced with internal stakeholders to design and develop highly customized web applications. Identified technology needs and recommended best available solutions.

2015 -2016

Graphic/VFX Designer

WebArch, Chennai

Defined and developed the project scope, functionality, logic and the UI design for the web applications. Led motion graphics, info-graphics and simulations for multiple team projects.

EDUCATION

2017 - Present

M.S in Computer Science

Northwestern University - Evanston, IL

CGPA: 3.8/4

Relevant Coursework: Human Computer Interaction, Computer Graphics, Computational Photography, Algorithm Design

2013 -2017

B.Tech in Computer Science

SRM University, Chennai

Illinois Institute of Technology, Chicago (Visiting)

CGPA: 9.4/10

Relevant Coursework: Operating Systems, Artificial Intelligence, Computer Vision, Internet Security, Database systems

PROJECTS

2017 - Present

Ver.ID

Designed and Developed a secure credential verification platform using blockchain to make background checks hassle free. Technologies in use: React, Ethereum, Node.js, MySQL

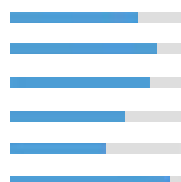

2018 - Present

FEEDback

Designed & developed a hybrid web application using Ionic that allows users to share surplus food from restaurants and stores. Technologies in use: Ionic, Node.js, MongoDB

MY SKILLS

Photoshop
Sketch
InVision
Illustrator
After Effects
C/C++

HTML/CSS
JavaScript
SQL
Node.js
React/Redux
Ionic
